Projects

Portfolio Website
Developed a personal portfolio website to showcase web development skills and project experience. Designed with a focus on user experience and responsive design.

- **Technologies Used**: HTML, CSS, Bootstrap.
- **Features**:
    - Interactive design with [e.g., icon animations, resume, multilingual options (English and German)].
    - Integrated with GitHub and LinkedIn profiles for easy navigation to personal projects and professional background.
- **Link**: **https://ashtarbit.github.io/myPortfolio/**

Internships

10/2022 - 02/2023
Istanbul/Turkey
Daimamoda
Internship in Website Programming

During my Daimamoda internship, I helped develop and customize nopCommerce e-commerce solutions. I integrated payment gateways, managed product catalogs, optimized website performance, and collaborated on front-end features using HTML, CSS, and JavaScript. I also gained C# experience enhancing backend functionality.

02/2022 - 08/2022
Istanbul/Turkey
Scramblebit
Internship in Website Programming

At Scramblibit, I developed responsive websites using HTML, CSS, and Bootstrap, focusing on clean design and user experience. I used basic jQuery to enhance functionality and user interactions, solidifying my understanding of front-end web development principles.

Education

04/2024 - Present Nordhausen/Germany	Computer Engineering for IoT Systems (Master) **Hochschule Nordhausen University of Applied Sciences**	
08/2019 - 09/2023 Istanbul/Turkey	Computer Engineering Program (Bachelor) **Altinbaş University**	

Expertise and Skills

- **Programming Languages**: HTML5/CSS3, JavaScript ES6, Python, C++, C#
